San Diego City College
2013-2014 Report to the Community
on the 2012-2013 Academic Year

Photo by Pablo Mason
As the first community college established in San Diego and the fifth in California, we look forward to you joining us on campus throughout 2014 as we celebrate our milestone 100th Anniversary.

You will be amazed to see the new face of City College. In the last few years, City College has undergone the largest transformation in the history of the college.

From the first purchase of 3.35 acres in the early 1950s along Russ Boulevard and 14th Street, the campus has grown to 60 acres and comprises one-fifth of downtown San Diego.

From 34 students in 1914, to nearly 17,000 now, the college proudly serves as the higher-education gateway to the downtown. Along the 16th Street corridor are the five newest instructional and vocational classroom buildings, including the 88,000sf Career Technology Center, the 85,000sf Math and Social Sciences building, the 98,000sf Science building, the 128,000sf Arts and Humanities building, and the 62,000sf Business Technology building.

Additionally, our newly opened Corporate Education Center offers state-of-the-art conference facilities including a 120-seat lecture hall, 100-seat multipurpose room, four conference break-out rooms, an instructional computer classroom, a business center, and a warming kitchen.

This year, City College was honored to receive an Alonzo Award from the Downtown San Diego Partnership which recognizes those whose efforts have contributed significantly to the enhancement and enrichment of Downtown San Diego. We welcome the opportunity to share these first-rate facilities with our community and business partners.

San Diego City College has changed the lives of hundreds of thousands of students over the past 100 years. Our distinguished alumni are now serving as agents of change throughout our country. As we honor our rich history, we also celebrate our future by continuing to inspire change on our campus and in our community.

I look forward to seeing you on campus during our 2014 Centennial year.

Lynn Neault, Ed.D.
Interim President, San Diego City College
Building the Future
New footprint at City College

Math & Social Sciences building

What’s Inside?
• Mathematics, Social and Behavioral Sciences, History and Political Sciences, Black and Chicano Studies
• District’s Contract Military Education program
• Corporate Education Center
• Food Services C-Store and satellite bookstore
• Seven-story, 400 stall parking structure
• Future home of the Family Community Health Center
* On track to receive LEED Silver Certification

Career Technology Center

What’s Inside?
• Nursing, Cosmetology, and Photography/Digital Arts
• State-of-the-art classrooms with interactive instructional tools
• Nursing simulation labs and simulation models
• Photography darkrooms and studios with cyclorama backdrops, 66 enlarger stations, three digital print labs, and a gallery
• Large lecture room for 125 students
• College police headquarters
• 694 stall parking structure; 33 spaces for high-efficiency vehicles
* LEED Gold certification

Science building

What’s Inside?
• Astronomy, Life Sciences and Physical Sciences
• New classrooms, labs, and state-of-the-art technology
• Outdoor teaching garden and greenhouses
• Planetarium
• Rooftop Astronomy observation deck
* On track to receive LEED Silver Certification

Arts & Humanities and Business Technology buildings

What’s Inside?
• Visual Arts, Media Arts, English, English for Speakers of Other Languages (ESOL), Speech and Foreign Language, Honors, World Cultures, and City Works
• New classrooms, a lecture hall, computer labs, and studio space for drawing, ceramics, sculpture, and graphics
• 100-seat black-box theater with drama classrooms and related offices and space
• Kith yard, a sculpture garden and display area, and gathering space
* On track to receive LEED Silver Certification

On the horizon:
2014: C/M Building Renovations
2015: A/D/T Building Renovations
2018: Child Development Center
* LEED: Leadership in Energy and Environmental Design, from the U.S. Green Building Council

PROP S & N - Thank you!
The City College campus is undergoing a massive transformation as part of the San Diego Community College District $1.555 billion Propositions S and N bond program.
City College in midst of transformation

After leadership struggles and enrollment declines, school officials hope $475M expansion, renovation of City College cements its place in the neighborhood and its place on the map

The school is nearing the peak of a historic $475 million expansion and makeover that will transform the community college from an outpost with antiquated laboratories and undersized classrooms into a modern training ground for the science, technology, health care and engineering industries. The college is adding seven major buildings—including one with a planetarium—and renovating nine others, creating a campus that, in some areas, resembles UC San Diego. The boom could boost attendance from 16,900 to a record 25,000 within a decade.

“...‘We’re going to reintroduce ourselves to the city next year, when we celebrate our centennial,’ says Neault. ‘They’ll see the new face of campus, hear the voice of our students, and learn that we’re training them to compete globally.’

...The resurrection of City College is part of a $1.55 billion effort to expand and modernize the San Diego Community College District, which also includes Mesa College, Miramar College and seven continuing education campuses. The money comes from Propositions S and N, construction bonds that were approved by the city’s voters in 2002 and 2006, respectively.

...The project is among the largest of its kind in Southern California over the past 20 years and is meant to offset the comparatively low and declining level of state funding that has gone to community colleges.

...The core of the transformation started to come together in 2010, with the opening of the Career Technology Center, a complex that has improved the school’s programs in nursing and the digital arts.

“The college is one of the best-kept secrets in the city.”

David Malmuth | I.D.E.A. District

...“Young people are increasingly urban-oriented,” Malmuth said. “They want to live, work and play in a sustainable environment. You see that in the East Village, where people want to live near the digital arts and tech startups that are moving in. City College can be a resource for these clusters. The college is one of the best-kept secrets in the city.”

Interim President, Dr. Lynn Neault

“City College is expanding. We’re moving up. Come see what’s going on.”

Jack Kent Cooke Scholarship

City College graduate Angel Monroy Aparicio, 23, is one of 73 Scholars in the nation selected in 2013 to receive the prestigious Jack Kent Cooke Foundation Undergraduate Transfer Scholarship. Graduating with Honors, Angel earned his associate degree in social sciences and history. Angel plans to pursue a master’s degree and doctorate in sociology and is attending San Diego State University.

The Jack Kent Cooke Foundation Undergraduate Transfer Scholarship is the largest scholarship of its kind in the nation. Recipients can receive awards of up to $30,000 annually for up to three years to pursue four-year degrees at any accredited college or university in the United States and abroad. Awarded to students who demonstrate exceptional promise and who have financial need, the scholarships can provide funding for tuition, room, board, required fees, and books for the length of the undergraduate degree.

“There is no better investment than supporting a student’s education.”

Making an Economic Impact

San Diego Community College District

Comprised of City College, Mesa College, Miramar College, and Continuing Education, SDCCD is an important employer in San Diego County. In FY 2012-13, the district employed 4,285 full-time and part-time faculty and staff. Of these, 95% lived in San Diego County. Total payroll at SDCCD was $218.5 million.

### Added Income in San Diego County

- **Consumer and Employer**
  - SDCCD is itself a large-scale buyer of goods and services. In FY 2012-13 the district spent $108.4 million to cover its expenses for facilities, professional services, and supplies. Approximately 59% of these expenditures occurred in the county.
  - The total income that SDCCD created during the analysis year as a result of its day-to-day operations was $239.4 million. This figure represents the district’s payroll, the multiplier effects generated by the spending of the district and its employees, and a downward adjustment to account for funding that the district received from local sources.

- **Investment Analysis**
  - For every dollar students invest in SDCCD, they receive a cumulative $6.00 in higher future income (discounted) over the course of their working careers.
  - California benefits from improved health and reduced welfare, unemployment, and crime, saving the public some $15.8 million per year.
  - Taxpayers see a rate of return of 11.0% on their investment in SDCCD.
  - Students enjoy an attractive 20.3% rate of return on their San Diego Community College District educational investment.
  - Over the course of his or her working career, the average SDCCD student’s lifetime earnings will increase $6.00 for every dollar invested in their SDCCD education (in the form of tuition, fees, and forgone earnings).
  - The average annual income of the typical associate’s degree graduate in San Diego County at the midpoint of his or her career is $54,800, 35% more than someone with a high school diploma.
  - Over the course of a working lifetime, associate’s degree graduates in San Diego County earn $486,200 more than someone with a high school diploma (undiscounted).

- **Projected 2020 Jobs in San Diego County by Skill Level**
  - By 2020, it is anticipated that there will be about 590,700 new and replacement jobs available in San Diego County.
  - About 34% of these jobs will require an education level equal to an associate’s degree or greater.
  - Another 6% of available jobs in 2020 will require some kind of post-secondary certificate or vocational award.

The overall effect of SDCCD on the local business economy during the analysis year amounted to $4 billion. This added income was equal to approximately 2.3% of the county’s Gross Regional Product.

### Economic Growth Analysis

- The San Diego County economy receives approximately $203.6 million in net added income each year due to SDCCD payroll and operations spending.
- The accumulated credits achieved by former SDCCD students over the past 30 years translated to $2.8 billion in added regional income in 2010-11 due to the higher earnings of students and increased output of businesses.
- For every dollar students invest in SDCCD, they receive a cumulative $6.00 in higher future income (discounted) over the course of their working careers.
- California benefits from improved health and reduced welfare, unemployment, and crime, saving the public some $15.8 million per year.
- Taxpayers see a rate of return of 11.0% on their investment in SDCCD.

### Student Perspective

- SDCCD is itself a large-scale buyer of goods and services. In FY 2012-13 the district spent $108.4 million to cover its expenses for facilities, professional services, and supplies. Approximately 59% of these expenditures occurred in the county.
- The total income that SDCCD created during the analysis year as a result of its day-to-day operations was $239.4 million. This figure represents the district’s payroll, the multiplier effects generated by the spending of the district and its employees, and a downward adjustment to account for funding that the district received from local sources.

### Education Is Your Ticket to a Better Job

- **Average Earnings in San Diego County**
  - High School: $21,600
  - Some College: $35,200
  - Bachelor’s: $46,600
  - Master’s: $65,500
  - $85,000

- **Projected 2020 Jobs in San Diego County by Skill Level**
  - By 2020, it is anticipated that there will be about 590,700 new and replacement jobs available in San Diego County.
  - About 34% of these jobs will require an education level equal to an associate’s degree or greater.
  - Another 6% of available jobs in 2020 will require some kind of post-secondary certificate or vocational award.

The results of this study demonstrate that SDCCD creates value from multiple perspectives. The district benefits local businesses by increasing consumer spending in the county and supplying a steady flow of qualified, trained workers into the workforce. It enriches the lives of students by raising their lifetime incomes and helping them achieve their individual potential. It benefits society as a whole in California by creating a more prosperous economy and generating a variety of savings through the improved lifestyles of students. Finally, it benefits state and local taxpayers through increased tax receipts across the state and a reduced demand for government-supported social services.

First Year Experience (FYE)

Since 2010, the First Year Service (FYS) Office and the FYE Program have served more than 5,360 students!

In 2010, San Diego City College established its First Year Student Success Initiative. By the end of the academic year 2010/2011, the First Year Service (FYS) had been created to serve as the main hub for new students and related activities. The focus of the First Year Student Success Initiative is the development of a comprehensive first-year experience program to improve first-year student retention and academic success; as well as the identification of a successful, but highly structured path of travel for first year students.

The First Year Experience (FYE) program forges strong connections among first-year students and faculty. Additionally it provides prescriptive advice and career counseling throughout the first year of college, accelerates student progress in acquiring college-level skills, supports student success in college-level courses, and prepares faculty and staff members to support student motivation and success.

Eligibility

• New students only; no previous college coursework
• Must plan to enroll in at least 6 units or more each semester
• Qualify for financial aid or have low income. All 540 students are also eligible
• Must agree to fully participate in all program requirements, such as: counseling meetings, peer mentor meetings, personal growth class, events, and workshops

Program Structure

1. A strong matriculation process
2. Accelerated developmental education
3. Structured Learning Assistance
4. Professional development
5. Enrollment Management - access to classes

Benefits

• Priority registration
• Personal Growth Courses: College Success and Career-Life Planning
• Personalized Counseling Support and Career Guidance
• Personalized Peer Mentor Support
• University Tours and Cultural Events

Photos provided by Bonnie Peters

In 2012-2013, nearly 2,000 students were served at Student Success Day!

The Peer Mentor Program

Students Supporting Students

The Peer Mentor program provides Life Skills & Financial Literacy Seminars, one-on-one sessions, university campus tours, along with participation in campus-based events and FYE-sponsored activities at the FYE Peer Mentor Center.

Peer mentors offer supportive listening through one-on-one meetings. They connect students with educational resources and advise students on how to balance college demands with personal and family commitments.

In 2013, the number of peer mentors increased from 17 to 28
• Student to Mentor ratio of 1:30
• 37% of peer mentors are former FYE students
• All peer mentors participate in a week long training during the summer
• Peer mentors receive ongoing student leadership training throughout the semester by enrolling in a 2-unit leadership course, as well as monthly financial literacy training and suicide prevention training

73% of students strongly agreed in 2013 that the Peer Mentor program was helpful in their academic success.

Since 2010, the First Year Service (FYS) Office and the FYE Program have served more than 5,360 students!
The Veteran Peer Mentor Program

Ten Veteran Peer Mentors were hired through a competitive process, and offered positions based on their experience, knowledge with the veteran population, and abilities to outreach to other veterans on campus.

Veteran Peer Mentors have had prior military service.

All of the Veteran Peer Mentors have received training in the following areas:

- Education and Financial Aid for Veterans
- Veteran Medical and Disability Benefits
- Yellow Ribbon’s Be-A-Link Suicide Prevention Program
- Veterans Affairs vocational program opportunities and other eligible services
- Public speaking
- Specific issues encountered by veterans in education

All mentors have had personal experience with some or all of the following prior to being selected as Veteran Peer Mentors:

- Being supportive listeners
- Providing general information and guidance by someone who has experienced similar circumstances
- Being a link between fellow veterans and the Mental Health Counseling Center
- Reducing stigma regarding mental health issues (i.e. depression, PTSD), and referring student veterans to the Veteran Therapist.
- Being aware of the signs of suicide and capable of getting help to those in need
- Being on-campus ambassadors carrying the message that there is a place for veterans to go for help

Price Scholars

Angela Calabro Attending her dream school, San Francisco State University, and taking 3 scholarships with her: the Debbie Dale Memorial Scholarship, the Fred Lewins Scholarship, and the Friends of Downtown Scholarship. Lumpy Dias received the Friends of Downtown Scholarship. Participated this summer with the National Hispanic Leadership Institute. One of 22 fellows selected nationally for the training. Spoke to lawmakers in Washington, D.C. (July of 2013) regarding the topic of undocumented students and the fresh fandom experienced due to their status. Fatmata Sango Completed her second summer internship at USDA at the Pre-Med Marine Cancer Center. She also co-authored an abstract regarding cancer research that was presented at the Annual BioMedical Research Conference for Minority Students in San Jose, CA. She attended the National Association for Cancer Research Conference in Washington, D.C. All Arendes Received the Friends of Downtown Scholarship. Received Mathematics, Engineering and Science Achievement (MESA) Scholarship. Received the Other Scholarship Award.

Sergio Sandoval Received Mathematics Department Scholarship. Received MESA Scholarship. Attending Georgia Tech. Jeremy Eldag Received MESA Scholarship. Maria Lemus Received MESA Scholarship. Adela Buxton Received Les Sollem – Counseling Department Scholarship. Patricia Oligon Received the Edward Beach – Biology Scholarship. Shynelle Rockett Received the Edward Beach – Biology Scholarship. Received the Friends of Downtown Scholarship. Alejandro Martinez Received the William Trowbridge Scholarship. Mike Quesada Graduated with high honors in May 2013 and has been accepted to UC Santa Barbara. Lovely Highly The youngest City College graduate with high honors in May 2012 and has been accepted to UC Santa Barbara. Lovely

In 2013, the Price Scholarship Program had their largest graduating cohort in its history.

Preparing and Equipping Students

The Price Scholarship Program helps prepare students for the job market by encouraging and assisting them in obtaining a Certificate of Completion or an Associate Degree. The program provides students with valuable experience through structured job shadowing, community service assignments, and internships with local community agencies, schools, and businesses in the City Heights, Balboa Park, and the local community of San Diego.

San Diego City College Price Scholars receive assistance to fulfill their educational goals. In exchange for financial, academic and individual counseling assistance, Price Scholars are required to perform 200 to 300 hours of community service or internships in the community each year they are enrolled in the program.

Volunteer Work valued at $11,793 per Student!

As part of the Price Scholars’ commitment to the program, all Scholars perform volunteer service at eight local community organizations. During the past two years, the graduating Price Scholars class of 2011-2013 have completed over 23,504 hours of Volunteer Service with our Community Partner Organizations. This translates to a total value of $365,568 of in kind support to non-profit organizations that work with the program—an average of $11,793 per Price Scholar.

Community Partner Organizations included:
- Rauschen H. Fett Science Center.
- San Diego High School, Barrio Logan College Institute, Rosa Parks Elementary School, Mid City Pediatrist Clinic, UCSD Student-run Free Clinic.
- Lincoln High School, César Chávez Service Clubs of San Diego, and the Urban Corps of San Diego.

San Diego City College Nursing Program pins 63 new grads and boasts a 98% NCLEX-RN Licensure exam pass rate.

*National Council Licensure Exam for Registered Nurses

Student Speaker
Daniel Caldera, the City College Associated Student President, is a 21-year-old transfer student in Mathematics. At Pitzer College at the Claremont College Consortium, Daniel plans to complete his bachelor’s degree in cognitive science with a specialization in computer science and a minor in Chinese studies. He would like to become a project manager or software engineer to develop technologies to assist in therapies for helping individuals cope with, and overcome, mental illnesses.

Nursing Graduation

More than 600 family and friends celebrated the pinning of 63 new San Diego City College nursing graduates on Saturday, May 25, 2013. The symbolic celebration marks the completion of each graduate’s Associate of Science degree and celebrates the accomplishments of new nurses entering the nursing profession.

San Diego City College started its nursing program in 1971, and graduates an average of 60 nursing students annually. The City College Nursing program offers a two-year Associate of Science Degree in Nursing program, and an LVN to RN Associate Degree program, which can be accomplished in one year.

Alumni Success

Barry Cordero
SHPE National President

Principal Project Engineer
Medtronic (Minneapolis), 2007
B.S. Bioengineering, 2007
University of California, San Diego
San Diego City College, 2004

Barry began his educational journey at San Diego City College in Spring 2003. Barry was a first-generation college student from a financially disadvantaged background. At City College, he joined the Mathematics, Engineering, Science Achievement (MESA) Program, where he became part of a community of learners in science, technology, engineering and math (STEM) majors. Through MESA, Barry received academic support and opportunities for professional development, including an introduction to the City College SHPE (Society of Hispanic Professional Engineers) Chapter. Barry instantly found his introduction to the City College SHPE (Society of Hispanic Professional Engineers) Chapter. Barry began his educational journey at San Diego City College in Fall 2005. She is a first-generation college graduate from a financially disadvantaged background. At City College, she joined the Mathematics, Engineering, Science Achievement (MESA) Program, where she became part of a community of learners in science, technology, engineering and math (STEM) majors. Through MESA, Gaby received academic support and opportunities for professional development, including an introduction to the City College Society of Hispanic Professional Engineers (SHPE) Chapter.

Notable Achievements

• 2001-2003 SHPE National Vice President
• 2003-04 Vice President, San Diego City College SHPE Chapter
• 2003-04 National Outstanding Medium Chapter of the Year, San Diego City College SHPE Chapter

Stress Analysis Engineer
Boeing
Ph.D. Candidate, Mechanical Engineering, 2016
Stanford University

Gaby Baylon is a Ph.D. candidate in Mechanical Engineering at Stanford University, after earning a master’s degree in Mechanical Engineering from Stanford in June 2013. Gaby began her educational journey at San Diego City College in Fall 2005. She is a first-generation college graduate from a financially disadvantaged background. At City College, she joined the Mathematics, Engineering, Science Achievement (MESA) Program, where she became part of a community of learners in science, technology, engineering and math (STEM) majors. Through MESA, Gaby received academic support and opportunities for professional development, including an introduction to the City College Society of Hispanic Professional Engineers (SHPE) Chapter.

Notable Achievements

• 2013 SHPE STAR Award Honoree: Student Role Model, Graduate
• 2007 Association of Women in Science, San Diego Scholar
• 2006-07 President, San Diego City College SHPE Chapter

Faculty Success

John & Suanne Roueche Excellence Award

Nominated by City College President Terrence Burgess, five City College faculty and staff members were awarded the 2012 John & Suanne Roueche Excellence Award for their outstanding contributions to teaching, leadership, and learning. Recipients were awarded their medallion of excellence at the annual League for Innovation conference March 10-13, 2013 in Dallas, Texas.

President Burgess commended the five recipients for providing something unique to student learning.

Cy Kuckenbaker
Awarded the San Diego Foundation’s Creative Catalyst Grant to work on a one-year project in partnership with MOPA San Diego

City College adjunct film professor Cy Kuckenbaker received San Diego Foundation’s Creative Catalyst Grant to work on a one-year project in partnership with MOPA (Museum of Photographic Arts) San Diego. MOPA chose Cy’s project from more than a dozen proposals because his work was unique, including a new technique he developed for his videos called “chroma key.” An independent filmmaker and photographer, Cy received his MFA in film direction from the California Institute of the Arts, was the recipient of a Fulbright Fellowship in 2006, and served for two years as a Peace Corps volunteer in Eastern Europe. He is the director of both fiction and documentary films that have screened at many domestic and international film festivals including MoMA NY, Centre Pompidou Paris, the Los Angeles International Film Festival (IFF) and many others. In 2010 his feature documentary, Bush League, screened at the U.S. Pentagon and the U.S. House of Representatives Armed Services Committee. In 2012 his short film of airplane landings at San Diego International Airport received over four million views online.
All-Pacific Coast Athletic Conference

First Team
Women’s Volleyball: Tessa Butterfield and Darby Duprat
Men’s Soccer: Mark Ar-English and Alex Rodriguez

Softball: Lisa Pare, Lisa Nguyen, Tara Tran, Lina Van, Cassandra Ke and Karen Escobedo

Did You Know?

City College ranked #1 of the top 25 community colleges in the nation.* City College was the first community college in San Diego and the fifth in California. Since its inception in 1914, San Diego City College has educated more than 1,000,000 students. City College offers more than 200 degrees and certificates. In 2010, City College started the first sustainable urban agriculture program in southern California and our Seeds@City Urban Farm is a working farm, outdoor classroom, and Farmer’s Market. City College made the President’s National Higher Education Community Service Honor Roll for providing more than 30,000 hours of community service. City College is undergoing a college-wide transformation of its 60-acre campus, including adding six new Leadership in Energy and Environmental Design (LEED) certified buildings and renovating eight others. The Career Technology Center houses one of the largest vertical solar arrays in the U.S. The Center for Applied Competitive Technologies (CACT) at City College has a self-supporting Technology Incubator. The City College Corporate Education Center has a 120-seat lecture hall, a 100-seat multi-purpose room, and conference classrooms. City College houses the District’s Military Education Program that provides training to 145,000 Navy, Army, and Marine Corps personnel each year at 24 bases in 15 states. The 280-seat Saville Theater at City College hosts student musical and drama productions, extraordinary World Cultures performances and lectures, the International Book Fair Literary Series, and community events. City College is a nationally designated Hispanic Serving Institution. The San Diego City College Foundation awards more than $380,000 in annual scholarships. Jazz Week Magazine named City College’s acclaimed Jazz 88.3 (KSDS) radio station “Large Market Jazz Station of the Year”. The City College Knights boast multiple Coaches of the Year and men’s and women’s sports teams in baseball, badminton, basketball, cross country, soccer, softball, tennis, and volleyball. City College Cosmetology services are open to the public. City College of the Year.” The City College debate team defeated Fullerton Junior College.

1914
City College was the first community college in San Diego. On September 8, 34 students and 4 instructors began college classes at the Old Gray Castle High School on Russ Boulevard. City College ranked #1 of the top 25 community colleges in the nation.* City College was the first community college in San Diego and the fifth in California. Since its inception in 1914, San Diego City College has educated more than 1,000,000 students. City College offers more than 200 degrees and certificates. The City College Knights boast multiple Coaches of the Year and men’s and women’s sports teams in baseball, badminton, basketball, cross country, soccer, softball, tennis, and volleyball. City College Cosmetology services are open to the public. City College of the Year.” The City College debate team defeated Fullerton Junior College.

1916
In the first intercollegiate debate ever in San Diego, the City College debate team defeated Fullerton Junior College.

1948
City is the only college in the nation to combine apprenticeship and academic courses for students to earn both the journeyman’s certificate and the Associate of Arts Degree.

1951
City College had the first educational radio station for city schools in San Diego and the first non-commercial FM station in San Diego. KSDS-FM radio began broadcasting December 3rd.

1966
KSDS radio added a TV station and offered the first classes for professional television training in San Diego.

1989
City College was chosen as one of the state’s four original advanced technology centers, and began the Center for Applied Competitive Technologies (CACT). It received federal and state funding to offer advanced technology training for workers displaced in the shrinking defense industries, and to help local companies regain a competitive edge by adopting new technologies.

2005
In December, the college received its first-ever Title V Hispanic-Serving Institution grant. The $2.2 million U.S. Department of Education grant was geared toward at-risk and low-income students, and established an Academic Success Center on the campus.

2006
City College’s two-year Manufacturing Technology Program became the first in California to be accredited by the Board for Engineering and Technology. Partnerships with local companies provided support and donated equipment. A state grant of $250,000 was used to recruit students and further develop the curriculum into the areas of biotechnology and nanotechnology.

2007
In December, City College was awarded a five-year, $1.9 million National Science Foundation (NSF) grant for its MESA (Math, Engineering, Science Achievement) program. This grant was one of only 22 awarded in the nation.

2008
The first of its kind at an institution of higher education in San Diego County, the Seeds@City Urban Farm was formed in June through a partnership between San Diego City College and San Diego Roots Sustainable Food Project. Since 2010, the farm has also served as an outdoor classroom for the certificate program in Sustainable Urban Agriculture and Ecological Landscaping at City College, one of the first in southern California.

2010
In October, City College was the only California community college that was awarded an $851,216 state grant to train students in software management and computer networking.

Historical Overview

1914
City College was the first community college in San Diego (San Diego Junior College) with 34 students and 4 instructors. City College was the fifth community college in California.

1939
San Diego Evening Junior College was created by splitting the institution into two entities, day and evening. With the industrial growth in San Diego, the Evening College was needed to meet the demand for college courses for daytime working people.

1921
City College moved from the Old Gray Castle High School on Russ Boulevard to share facilities with the State Normal School, the four-year teachers' college which became San Diego State University.

1946
City College moved back to San Diego High School and reorganized into three branches: Business and Technical Center, the San Diego Evening Junior College, and the Applied Arts and Science Center. The Junior College grew from 250 students in 1946 to 1,675 students in 1948.

1953-56
The first parcel of land, a single city block of 3.35 acres between Russ Boulevard and A Street, from 14th to 15th Streets, was purchased and cleared of old homes and apartments for the permanent home of what is now San Diego City College, but then called San Diego Junior College and Vocational School. Cassies began in 1956 in the A (Administration) and the T (Technical) buildings. The T-roof had the first rooftop parking (200 cars) of any building in San Diego. Student increased to 7,284.

1960s
The Board of Education approved the name change from San Diego Junior College to San Diego City College (1967), voted to officially separate the college from the Unifed School District (1968), and allowed the formation of a Community College District (1968).

1970s
Urban renewal and expansion transformation: Increasing enrollment resulted in a major expansion project bounded by Russ Boulevard, 11th, 13th and C Streets. The L (Library), C (Creative Arts), S (Cosmetology), M (Mathematics/Science), E (Evening College Administration), D (Dining Center), and F (Child Development) buildings were constructed. The B-Street overpass and Curran Plaza were constructed in 1974.

1981
A facilities Master Plan was developed to recommend modifications to the existing facility, to meet current and future needs. In 1981, Joanne Alhertson became the college president, the first woman ever to head a community college in the district. In 1989, City College celebrated its 75th Anniversary.

1990s
New partnerships: In 1990, City College was selected as a Center for Applied Competitive Technology (CACT), only one of four community colleges to be designated a regional center. In 1994, a grant from the U.S. Department of Commerce allowed the development of a High Technology Business Incubator to support startup businesses.

2000s
A new facilities Master Plan was approved by the Board of Trustees in 2005 and projects a 20-year build-out to accommodate 25,000 students. New facilities included the Educational Technology Center in 2000, a Learning Resource Center/Library in 2002, the Harry West Gymnasium in 2005, the Academic Success Center in 2009; the Career Technology Center in 2010, and the Math and Social Sciences building in 2013.

Centennial Celebration
The Centennial Celebration year will include the opening of the Science building and Planetarium in the spring and the Arts and Humanities and Business Technology buildings in the summer.
