Five Facts
You Might Not Know About UC Berkeley

1. **Groundbreaking New Online Introductory Chemistry Course.** The College of Chemistry is introducing a groundbreaking online introductory chemistry course, Chem W1A. Transferable for 3 units UC Berkeley credit, Chem W1A will enable students to learn introductory chemistry this summer in an energizing, interactive online format.

2. **Senate Confirms Shapiro’s Appointment to White House Economic Council.** The U.S. Senate on Thursday, April 14, confirmed the appointment of Haas Professor Carl Shapiro to the president’s Council of Economic Advisers. President Barack Obama nominated him to the council in February.

3. **UC Berkeley has largest contingent at 2011 Richard Tapia Celebration of Diversity in Computing.** The 2011 Richard Tapia Celebration of Diversity in Computing was held in San Francisco, marking the 10th anniversary of the conference series. UC Berkeley EECS professor David Patterson served as General Chair. This year the conference had a record number of attendees and the largest contingent was from UC Berkeley.

4. **Cal Teach Graduates First Credentialed Teacher.** Half a year after Cal Teach was approved by the state to offer a math and science teacher credential program, UC Berkeley celebrates the first graduate with a teaching credential through this program. In May of 2010 Cal Teach became the first UC program approved by the state of California to offer a four-year undergraduate math and science teacher credential program.

5. **UC Berkeley in the palm of your hand.** UC Berkeley launched its new mobile website, m.berkeley.edu, which provides campus information designed for the web browsers on different types of smart phones and mobile devices. The site includes the campus map, directory, events, news, library tools, varsity athletics, as well as links to UC Berkeley’s social media, with more offerings to come.
