UC Irvine
Spring 2011 Transfer Update

Five Facts
You Might Not Know About UC Irvine

1. **Transfer students find support.** Transfer Admissions and Enrollment Services offers admissions counseling, enrollment assistance and pre-transfer programs. Transfer Student Center helps new transfer students quickly locate appropriate resources for their needs. Opportunities abound for study abroad, participation in UC’s Washington program and other internships.

2. **UC Irvine guarantees one year of housing** to all first-year transfer students enrolling in fall quarter who are single, under the age of 25 and meet required deadlines. Living on campus gives students convenient access to campus resources, dining services, the support of students and staff, and many opportunities to form new friendships and a sense of community.

3. **The Transfer Seminar Program** encourages upper-division transfer students to become active participants in intellectual interactions with their peers and professors. With classes of 15 students led by Academic Senate and research faculty, the seminars emphasize analysis and communication, and give faculty and students a chance to explore academic topics and new lines of inquiry in a supportive setting.

4. **Students engage in research with faculty.** A hallmark of the UCI undergraduate experience is the opportunity to work with faculty on research projects. In a recent survey of undergraduates, 90 percent of UCI seniors had participated in a research activity while at UCI.

5. **UCI has won 26 national sports championships,** including the 2009 men’s volleyball national title. UCI competes in Division I of the NCAA and is a member of the nine-school Big West Conference as well as the Mountain Pacific Sports Federation.
