

# Destiny Gallegos-Munoz

I'm Destiny Gallegos-Munoz, and I am running to be your ASG President. Over the past two years, I have been involved with ASG and Puente, which have helped me to widen my perspective from the student body at San Diego City College. I have created, participated, and helped to set up many events on campus from all aspects of student life, as well as to fulfill my duties as the ASG Senate Vice President last year. Currently, I serve as the ASG Government Affairs Officer (GAO), which has given me experience with bylaws and forums, as well as provided me with the necessary confidence to address many concerns that students have on campus. If elected ASG President, I vow to lead by example, engage students, and serve as a friendly face on campus you can go to for support. I strongly believe we do not have enough women in politics, and I want to be a leading example to demonstrate that we can break that stereotype and empower others on campus. Make sure you vote because you deserve to be heard!

## Running For President

# Isamar Mejia

Hi everyone! My name is Isamar Mejia and I am currently an ASG Senator here on campus. I am also a Puentista, and I'm seeking to make a change here at City College. I want San Diego City College to feel like a second home; a place where there's no judgment for the color of your skin, race, religion or sexuality. I want to be a voice for students, many of whom can't speak up. I'm here to help in any way possible to benefit students. I am also a student here with goals just like everyone else. I'm here to help you reach your goals and aspirations. I want to make a change that will make a difference on this campus! Let's break the cycle of silence and work together for a better future for all of us. It will be an honor to serve you as the Secretary in the Associated Students Government.

## Running For Secretary

# Diego Cuadros

I'm currently a student at San Diego City College and a member of the Puente Project which motivates educationally disadvantaged students toward higher education. I've been part of the Puente cabinet for different positions; I used to be the ICC representative and now I'm currently the treasurer. I've been part of ASG for the past two semesters, and I really enjoy it. I have been able to meet a lot of students and notice the impact that ASG has in our campus and students. That's why I would like to run again for senator for the next semester, so I can continue being part of these changes in our college and be the voice of those who can't give their points of view or their opinions. As Senator, I will actively work to inform students about the events that happen around campus, and to inspire them to be more involved with clubs or conferences. I feel that there are many benefits here on campus that many students don't know about. I want to change that! I understand what it means to form part of ASG and realize how important and impactful this is for all the students that I'll represent as a senator.

## Running For Senator

# Marie Migambi

Currently, I am an ASG Senator and want to continue my work in ASG. I love talking to students about their situation at City College, and really care. In order to make a change as a community, we need to work together. Solving problems is what I love to do. In ASG, we share our ideas to bring solutions through our meetings. I'm prepared to represent City College students. I love to see positivity, smiles and happiness. When engaging with students, my heart will always be in peace because I am working for them. I've learned a lot as a Senator in ASG and my experience has empowered me to stand up for students, so they have what they need to be successful. For students who think their voices don't matter, know they do! Your voice has the power to change anything! Together, we are strong and powerful. As a Senator, my job is connecting with you, making you feel welcome and talking with you about important issues. We are like a family and I want you to know you can feel safe and know you are alone on campus. Understanding, observing and addressing issues that may exist is important. Taking action to solve problems is what's needed. I commit myself to representing all students at City!

## Running For Senator

# Victoria Boahemaa Owusu

I'm Victoria Boahemaa Owusu, a biology major intending to transfer in May 2022 to my dream school UCLA or my second option UCSD. I plan on becoming an OB/GYN or a Hematologist. Fall 2020 will be my second year at City College and a member of the ASG Board. I'm also part of Umoja, City Women Rock and MESA programs. I chose to run for Senator because that's where I see my strengths in practice. I'm always positive about things! I believe in the fact the no matter how grumbled the situation may be, it can always be set right. Also, the future is what we all look to, and in order to do that, positivity is needed. Therefore, continuing my work as an ASG Senator will enable me to bring positivity to the Board. As well, I will work to plan ahead for current students and their future successes. I'll always seek for us to think ahead and plan for those who join ASG after we transfer or graduate. By reaching out to students, I will learn about situations that need the ASG to help so every student can benefit. I'll be able to dive into student issues while collaborating with the ASG team. As Malcolm X said, "When I, is replaced with We, even the illness becomes wellness." Thus, let's come together and make San Diego City College a better place for all.

## Running For Senator

# Nicolas Ruvalcaba

I am presently a member of both ASG and Puente. During my time with Puente, which are important to me because I am helping students. I would like to continue to be part of ASG because it has been a good experience to work with the other members. That's why I am running again for ASG Senator. If elected again, I will do my best to offer my services to those who need help within the campus community. For my part as a Senator, I would like to be involved with solving any issues that we can as a group of dedicated students. For any student who attends our meetings, I'll be there to listen and discuss any questions about our campus and how ASG operates. As ASG senator, I know that I'll have responsibilities on my own, however, I'll be glad to take part in being involved in any way possible. I understand that being part of a community, it takes time to grow, and I want to be a part of that growing process to serve students at City College.
